SUMMARY

A full stack, detail-oriented and collaborative Application Developer with extensive experience in the financial industry. Recently received full stack web developer certificate. Reliable team player skilled in multiple programming languages, multiple database products, data warehousing, and reporting tools. Passionate about developing applications to help people with everyday problems. Strong analytical skills support a proven ability to effectively resolve problems. Applies an active listening approach to encourage productive teamwork while developing and maintaining effective working relationships across an organization.

TECHNICAL SKILLS

HTML5, CSS3, JavaScript, React, Node.js, Bootstrap, MongoDB, NoSQL, MySQL, Git, Heroku, Oracle, SQL Server, Essbase, Actuate, Oracle Business Intelligence, Java, J2EE, C, C++, DB2, Microsoft Office, XML, Windows, Mac OSX, Unix, WebLogic, Visual Basic, SharePoint

RELEVANT EXPERIENCE

CIBC, Toronto, (May 1999 – Mar 2020)

Advisory Application Developer

2013 - 2020

- Participated in the full development life cycle (design, develop, test, operations) for internal finance, management accounting and security administration applications. Support required monitoring batch jobs and being on an on-call rotation to troubleshoot and resolve incidents to prevent or minimize impact.
- Led and assisted the production support team. Maintained support checklists. Provided metrics to management.
- Trained offshore team to ensure overnight service level agreements were met.
- Coached and mentored team members.
- Represented team to liaise with Operations teams, Audit Risk and Compliance to ensure applications were compliant and stable.
- Improved quality control of changes implemented by team members, and became the designate for the manager to review and approve changes being implemented to ensure proper artifacts were included.

Senior Application Developer

2005 - 2013

- Provided coaching and recommendations to other projects so timelines weren't impacted.
- Was involved in proof of concept to assist in a decision of software upgrade or replacement.

Intermediate Application Developer

2002 - 2005

- Introduced Actuate coding standards for the team to use and became Actuate Administrator.

Systems Developer/Application Developer

1999 - 2002

COBOL Developer (Co-op)

May-Aug 1998

Awards and Recognition

- Received Individual and Team Achiever Awards (CIBC):
GL Close (2019), FT-IFRS Program (2012), New York Liftoff GL Migration (2012), Consensio II (2010), Q3 Restatements Group (2010), and several others
- Received multiple Client Awards (CIBC):

“Impact” - Clients expressed thanks for the impact made to projects.

“On-the-Spot” - Consistently taking ownership of variances on projects and assuming responsibility.

PROJECTS

Amazon Clone | Source: <https://tinyurl.com/y45kypa7/> | Live: <https://tinyurl.com/yxc3h6p9/>

Small E-Commerce Amazon clone site using React and server side & API to process transactions

- Tools/languages: HTML5, JavaScript, CSS, ReactJS, firebase, email authentication

Netflix Clone | Source: <https://tinyurl.com/y4hdotc5/> | Live: <https://tinyurl.com/yxcpd6sk/>

Small site using React, axios (for movie api) and firebase

- Tools/languages: HTML5, JavaScript, CSS, ReactJS, firebase

Discord Clone | Source: <https://tinyurl.com/y68se7ho/> | Live: <https://tinyurl.com/y6hv5kpx/>

Small site using React, Redux and firebase

Tools/languages: HTML5, JavaScript, CSS, ReactJS, firebase, Google authentication

Mood-Food-and-Chill | Source: <https://tinyurl.com/y3we86ho/> | Live: <https://tinyurl.com/y22y8l5y/>

Web application using server side & APIs to retrieve movie & food information based on user's mood

- Core responsibilities: developed server-side functions to interact with the APIs
- Tools/languages: HTML5, JavaScript, CSS, Bootstrap, JQuery, 2 APIs (Movie Database, Food By Mood)

EDUCATION

Full Stack Web Development Certificate: University of Toronto School of Continuing Studies, Toronto

A 12-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node JS, MySQL, MongoDB, Express, Handlebars.js & ReactJS

Seneca College of Applied Arts & Technology, Toronto

Computer Programming & Analysis (Co-op) Diploma with Honours

Introduction to Agile (CIBC)

PROFESSIONAL DEVELOPMENT

Profit With JavaScript: Clever Programmer, Online

A JavaScript and ReactJS intensive program
